COBRA SYSTEM RX

- Ek's new enhanced Carbine Precision Target model.
- Powerful 130lb limb set is quietly cycled with Integrated Cocking Lever
- Upgraded with String Dampening System to reduce vibration and sound signature.
- The RX is designed to deliver Ek's 15" carbon bolt @230fps, suitable for small game hunting.
- Augmented with a new aluminum red dot sight, AR15 Mil-Spec stock and tough Desert Tan finish.
- Configured with three-point Picatinny rails to allow for tactical aftermarket accessories.
- Featuring the R9's rapid assembly/disassembly design and robust Safety & Anti-Dryfire Systems.

COBRA SYSTEM R9

- Ek Archery Research's pioneering ergonomic Compact Crossbow.
- Integrated Cocking Lever allows any age user to easily cycle the 90lb limb set.
- Designed to be rapidly assembled/disassembled into discreet components.
- Ideal for the survivalist's "bug-out bag", varmint control, and primary crossbow instruction.
- Designed around rugged Safety and Anti-Dryfire System
- Serious shooting with Ek's proprietary 7.5" carbon bolts @240fps.
- Upgradable with interchangeable 110lb. limb set.

COBRA SYSTEM RX ADDER

- Ek's latest offering, a truly tactical X-bow allowing for rapid follow-up shots and suppressive fire.
- The RX ADDER is the modernized version of the famous repeating "Chu-ko-nu" crossbow.
- Featuring all of the Cobra System's R-Series unique design attributes and safety mechanisms.
- Non-removable top-load magazine holds up to five Ek carbon bolts at a time.
- Magazine retention arm facilitates positive bolt feed and easy loading.
- Specialized mechanism prevents cocking with an empty magazine.
- The RX ADDER 130lb limb set accelerates Ek's proprietary 7.5" carbon bolts @270fps.
- Teams up well with another Cobra System RX/R9 for a dominating combination of firepower.
